LAN Mission, Vision, & Goals

Formation & Purpose of the LAN

Launched by the U.S. Department of Health and Human Services (HHS) in 2015, the LAN was created to bring together partners in the private, public, and non-profit sectors to transform the nation's health care system to emphasize high quality, efficient, and affordable care via alternative payment models (APMs).

Since its inception, decision makers from these stakeholder groups have worked together through the LAN to align efforts, capture best practices, disseminate information, and apply lessons learned.

History of the LAN

Original Mission & Goals

To accelerate the health care system's transition to alternative payment models (APMs) by combining the innovation, power, and reach of the private and public sectors. The shift from fee-for-service to paying for quality via APMs is aimed at achieving better quality, better health, and lower cost.

GOALS

Goal of U.S. health care payments linked to quality and value through APMs in **Categories 3 & 4*** of the APM Framework.

Organizations Supporting New LAN Goals

LAN Structure & Workflow

LAN Governance

MITRE

- As a not-for-profit organization chartered to work in the public interest, MITRE operates federally funded research and development centers (FFRDCs) for the federal government and serves as an objective, independent advisor to CMS and other HHS operating divisions.
- The MITRE-operated FFRDC dedicated to health and well being is the CMS Alliance to Modernize Healthcare (Health FFRDC).
- The Health FFRDC serves as the independent convener of the LAN.

EXECUTIVE FORUMS

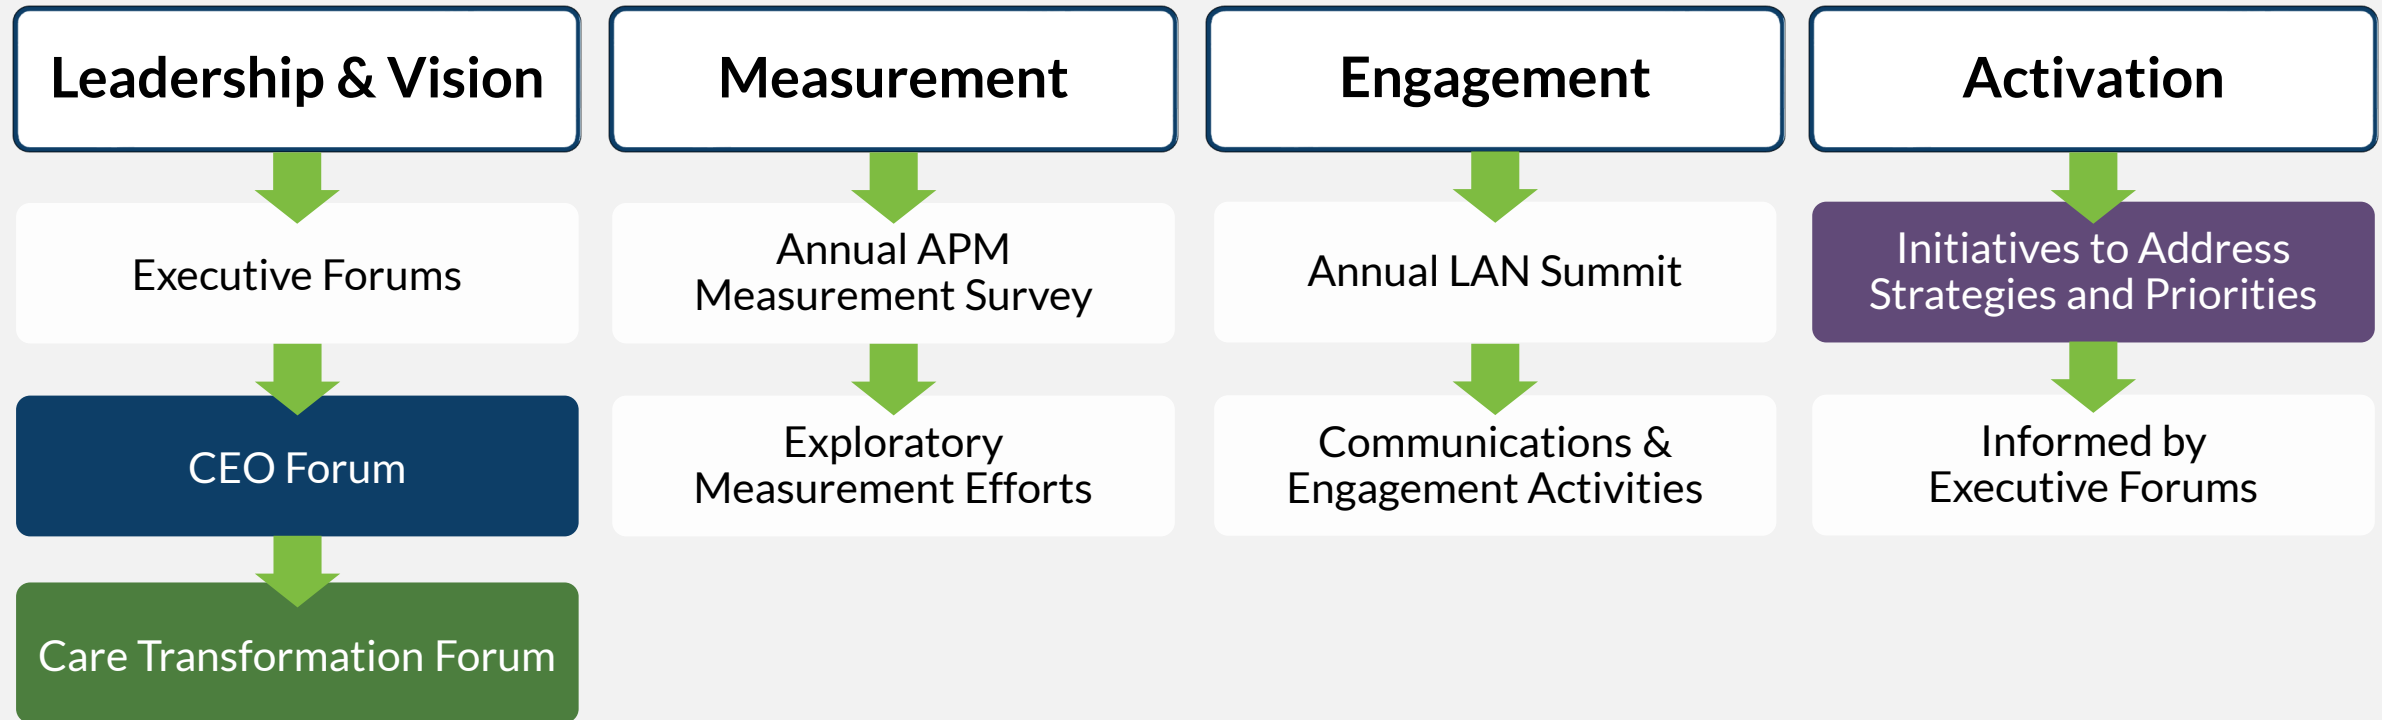

- Set strategy for the LAN within scope of LAN goals
- Serve as the primary collaborative bodies of the network
- Provide critical guidance and input into LAN initiatives and LAN work groups

- CMS funds the Health FFRDC to independently operate the LAN public-private partnership for a specific period of time.
- CMS is represented on the LAN Executive Forums as an equal partner with an equal voice in deliberations.

The LAN Executive Forums do not make policy recommendations directly to CMS or any other government entity.

LAN Structure to Accelerate Progress

The LAN's Executive Forums—the CEO Forum and the Care Transformation Forum—convene health care leaders committed to shaping the strategic direction for value-based payment in the U.S.

LAN Executive Forums

Executive Forums

CEO Forum

Influences LAN strategic direction and provides guidance on opportunities for action, alignment, and strengthening incentives and capacity to accelerate the transition to two-sided risk payment models across markets

- Chief Executives/Presidents
- Meets twice/year (Summer/Winter)

Care Transformation Forum (CTF)

Influences and shapes care delivery transformation by identifying the tools and strategies to prepare providers and clinicians for success in improving patient outcomes and reducing costs in two-sided risk payment models

- Clinical Executives (CMO/CQO/CNO/CTO)
- Meets twice/year (Fall/Spring)

LAN Accomplishments

LAN Overview

VISION

- An American health care system that pays for value to the benefit of our patients and communities.

MISSION

- To accelerate the shift to value-based care in order to achieve better outcomes at lower cost.

HOW WE ACHIEVE OUR MISSION

Since 2015, the LAN has empowered the public and private sectors with a common framework for classifying APMs, published an interactive tool for designing APMs, measured the annual progress of adoption, and hosted annual summits to connect stakeholders. Please explore the modules below to learn more about how we have led the movement to transform health care payment.

LAN APM Framework

- First published in 2016 and then refreshed in 2017, the APM Framework established a common vocabulary and pathway for measuring and sharing successful payment models
- 4 Categories & 8 Subcategories
- Has become the foundation for implementing APMs

State of LAN APM Framework Adoption

13 States and the District of Columbia are Using the LAN APM Framework to Set Requirements for Value-Based Payment.

In **2018**,
35.8% of U.S. health care payments, representing approximately **226.5 million** Americans and **77%** of the covered population, flowed through Categories 3&4 models.

In each market, Categories 3&4 payments accounted for:

COMMERCIAL

**MEDICARE
ADVANTAGE**

**TRADITIONAL
MEDICARE**

MEDICAID

Representativeness of covered lives: Commercial - 61%; Medicare Advantage - 67%; Traditional Medicare - 100%; Medicaid - 51%

Online Resource Banks

Maternity Episode Payment & Primary Care Payer Action Collaboratives

Maternity Episode Payment Online Resource Bank is a “one-stop shop” for the LAN’s efforts related to Maternity APMs, including:

- The LAN Clinical Episode Payment white paper maternity recommendations
- Slides, e-books, and summaries from the nine virtual meetings of the Maternity Multi-Stakeholder Action Collaborative (MAC), which the LAN operated from December 2016 to September 2017
- Report “Establishing Maternity Episode Payment Models: Experiences from Ohio and Tennessee”

LAN Summit

Platform for Learning & Collaboration

Each year, nearly 650 attendees participate in the LAN Summit. Industry leaders discuss an array of innovations in payment reform, touching on implementation methods and lessons learned.

Federal and state health care purchasers describe how they are addressing the challenges of current and future health care delivery via new payment models that put the patient first.

In October 2019, LAN Summit attendees collaborated in facilitated sessions designed for specific stakeholder groups which focused on vital areas of interest — and challenges — surrounding the design and implementation of APMs.
