

“Accountable Care” centers on the patient and aligns their care team to support shared decision-making and help realize the best achievable health outcomes for all through equitable, comprehensive, high quality, affordable, longitudinal care.

GOAL OF THE ACAC

The purpose of the ACAC is to catalyze the accountable care landscape beyond payment reform and increase collaboration and alignment across key stakeholder groups.

KEY COMPONENTS

Create a movement that promotes efforts to advance accountable care

Coordinate with and leverage other LAN initiatives and activities

Foster partnerships to facilitate large-scale application of findings and best practices

WHO IS PARTICIPATING IN THE ACAC?

- Participants include key industry leaders with organizational goals aligned with the LAN and with broad national influence through their membership.

WHAT ARE SOME TARGETED AREAS FOR ACTIVITY?

- Identify metrics and measures of success for value-based care arrangements to provide specific levers stakeholders can employ to move up the Accountable Care Curve.
- Pinpoint strategies and activities to motivate specialty care providers to engage in value-based care arrangements.
- Create a campaign for purchasers to motivate contracting of value-based care arrangements and reduce benefits coverage change.
- Amplify existing industry efforts to encourage patient-provider conversations about evidence-based care.
